# Inclusive Playground Project

Our current playground is a hub of activity and joy! It provides an essential outlet for students to exercise, socialize, and develop motor skills.

However, our equipment is not fully accessible to all of the children at our school, creating a barrier to fully engage in play and interaction with their peers.

We are asking for your support and help in raising \$200,000 this school year to purchase and install inclusive playground equipment so ALL of our students can play together.

## Why Help?

All kids should have the opportunity to PLAY!  
Your support will not only transform the physical landscape of our playground, but also the social fabric of our school community.  
The playground will serve as a constant tangible reminder of the importance of authentic inclusivity.

## New Playground

**New platform**  
A bridge will connect the current playground equipment to the inclusive playground addition. The new addition will also have a wheelchair accessible ramp. This will create access for students of all abilities to interact.

**New Equipment**  
-Wheelchair accessible merry-go-round  
-Wheelchair accessible glider  
-Spinning and rocking chairs  
-Sensory and music panels  
-Imaginary play panels

**Additional Features**  
-Fall protection playground tiles  
-Sun shade
